Gardner Group Ltd

Membership of the Toulouse Bureau has directly contributed to Gardner winning significant new business and enhancing its brand both within the region and, due to the global influence of Toulouse, with other international customers supplying into the region.

Nasmyth

ADS Toulouse provides great advice and networking opportunities to further establish our connections within the European Aerospace Industry.

Aeromet

Since Joining, Aeromet has benefited from the contacts made with French, English and European companies, that has led to some significant opportunities that are now converting to valuable orders. The knowledge of the staff has been also significant in development of our market presence in France.

GKN Aerospace

Our position in Toulouse has undoubtedly been strengthened through membership of the ADS Toulouse bureau, who's position within the French Aerospace community is well recognised. In addition the ability to network and share with the wider ADS Toulouse membership broadens the significant value we obtain from the bureau.

CAV

The ADS Toulouse Office provides excellent facilities, services and support together with networking knowledge and meetings in support to our strategic business direction.
