

A STRONG FOOTPRINT IN FRANCE

NEWSLETTER #11 - FEBRUARY 2023

Dear all,

It's 2023 and our sectors continue to evolve in this new world of digitalisation and automation as we accelerate towards decarbonisation transformation! We continue to carry the optimistic message of a continuous recovery in our sectors and a very strong demand even if we will all have to deal with stiff headwinds.

2023 begins a new era for ADS Toulouse with the announcement of my retirement and the nomination of Marie Margaux Honikman as my successor. Many readers will already know Marie from the many years she has worked alongside me, and our future couldn't be in better hands as she continues to raise the profile of ADS Toulouse and to support our company members in their ambition of business development in France. You will find below some of their successful stories and introduction for our new joiner.

In this first newsletter of the year, we are pleased to list some of our upcoming events and highlights of our programme for this first quarter.

Our ADS Toulouse Annual Event which was held again in October last year was a real success and we will be revealing the date for this year's event very soon!

Finally, Farnborough Airshow was a real buzz, and we are very much looking forward to meeting you all again at Paris Airshow!

Let's keep up the energy of face-to-face events this year!

Bon Vol en 2023 !
