SECURING OUR COLLECTIVE ADVANTAGE IN FRANCE

NEWSLETTER #15 - JANUARY 2024

Dear all,

Reflecting back on the past year, 2023 has been an outstanding journey, far exceeding the recovery progress we saw for our beloved Aerospace Industry in 2022.

In the past three years we have seen an extraordinary pace of change for our sectors and with the global footprint of our industries. It is more important than ever to work together, strengthen our collaboration, seize new opportunities, and address our most pressing priorities: Net Zero, the need for a renewed industrial strategy, an increasingly unstable geopolitical environment and securing a workforce fit for the future.

For the ADS Toulouse Office, we are, of course, eagerly anticipating our 25<sup>th</sup> Anniversary Celebrations in October at our Annual Event. In the coming months, we will launch new ventures, expanding our Space sector activity with a kick-off event in May, alongside additional support to members to drive supply chain excellence and deliver on sustainability efforts.

As always, we are very pleased to share with you our members' news below and highlight their great expertise.

As the first month of the year draws to a close, I wish you a healthy, joyful and blessed new year for you and your loved ones.

Bonne lecture.

Sincerely,

Marie Margaux Honikman  
ADS Toulouse Director
