A STRONG FOOTPRINT IN FRANCE

NEWSLETTER #3 - OCTOBER 2020

Dear all,

In this uncertain time of pandemic and Brexit, we all need confidence and positivity to build resilience.

Our team keeps on delivering a targeted and direct support to our members and on advocating for multiple initiatives to help them in securing recovery; export and business development abroad are part of it.

ADS Toulouse is working together with ADS HQ on the longer-term challenges and opportunities of sustainable aviation and how the new 'green' aviation targets can be achieved.

Communication for a better collaboration between the leading companies in our sectors this autumn will be crucial for delivering a prosperous future.

We want to engage collectively in order to maintain this dynamic, stay inspired and motivated to help our company members achieve their objectives in France.

Let's keep this vibe and please stay safe as we head towards 2021.
